

Planetary Magickal Associations

Planetary Magick is the art of evoking and directing forces or energy currents, derived from and associated with the seven traditional planets and are also associated with the Tree of Life, and usually associated with Kabbalah.

Below I am going to give an elementary explanation of planetary magick and its usage as well as Planetary Hours, Incenses and Herbs for the Planets.

*** Planetary hours are the hours in the day associated with the various planets that have astrological influence and the pattern is always repeated. Each hour is ruled by a planet, and thus the planet's influences briefly come into play as an energy.*

****** The planetary days are divided into twenty-four planetary hours with the first hour of the day beginning at sunrise and the last hour of the day ending at sunrise of the next planetary day. The period that extends from sunrise to sunset (daylight) is divided into twelve hours and the period extending from sunset to sunrise of the next day (nighttime) is also divided into twelve hours giving the twenty-four hours of the planetary day.

So, above I have given the general information on Planetary Associations, but what to do with them?

Below, I will give you a basic example of how to incorporate planetary magicks into your daily life.

DAILY LIFE

Let's say that you wish to bring the positive energy of a specific day into your life, something that will help you to truly connect with the day. For this example, I am going to use the 'dreaded Monday dallies', since everyone seems to hate Mondays.

Wake up –

Monday 5:00 am

Monday, at this time, is ruled by:

- Sun
- # 5
- Gold (color)
- Stones / Crystals:
 - o Tigers eye
 - o Citrine
 - o Goldstone
 - o Topaz
 - o Anything yellow, gold or eye – like
- Scents
 - o Frankincense
 - o Cinnamon
 - o Saffron
 - o Copal
- Herbs
 - o Sunflower
 - o Chamomile
 - o Yellow Roses
 - o Marigold
 - o Eyebright
 - o St. John's Wort
 - o Laurel

Now, incorporate the following to give yourself a pick me up to begin your Monday –

Dress in a gold color

Carry one of the stones with you as you finish us your morning routine

Burn some cinnamon incense

And have a cup of chamomile tea

Now, begin your day and keep all that energy work you just did during your AM routine in your mind

Now, here's a great exercise – put together 2 different uses from your daily life – 1 daily and 1 magickal – based on what you have learnt here.
